OUR STORY

D&J's started as a family plant hire business, D&J's Plant Hire, and became D&J's Civil Construction Pty Ltd in 2015.

Today we're a 30-plus person civil contractor with our own site management and supervisory team, an experienced workforce and our own fleet of plant and equipment, taking on projects large and small.

We still run on the values we started with as a family business: safety, quality, and timely, honest, reliable service. They're the basis of our long-term relationships with clients, suppliers and subcontractors, and winning repeat work is how we know we're living up to them.

SERVICES

Six services under one roof, self-performed by our own crews and plant from first cut to handover.

SUBDIVISION CONSTRUCTION

One contractor for the whole job, so developers deal with a single team from the first cut to handover to council.

- | | |
|----------------------------|-----------------------------|
| • Residential subdivisions | • Commercial and industrial |
| • Bulk earthworks | • Roads, kerb and channel |
| • Stormwater drainage | • Sewer and water mains |

UTILITIES & WATER SERVICES

Built by our own crews and tested to water authority standards before handover.

- | | |
|--------------------|---------------------------|
| • Water mains | • Water reticulation |
| • Service conduits | • Water authority testing |

SEWERAGE SERVICES

Sewer networks for new estates and commercial sites, laid, connected and ready for council sign-off.

- | | |
|-----------------|---------------------|
| • Gravity sewer | • Pressure sewer |
| • Manholes | • House connections |

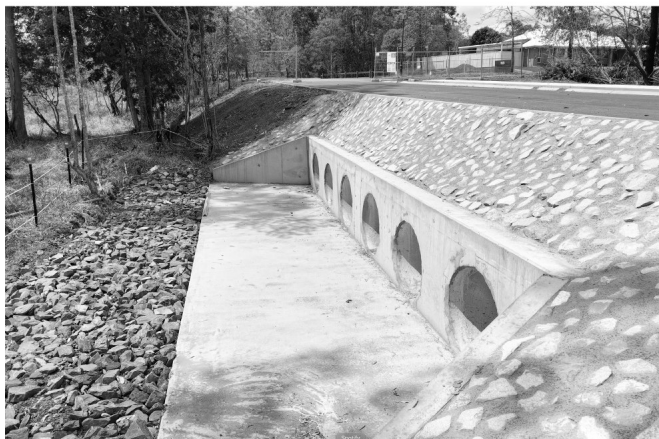

BULK EARTHWORKS

Our own plant and operators, from clearing the site through to compacted, shaped lots.

- | | |
|--------------------------|------------------------------|
| • Site clearing | • Excavation and cut to fill |
| • Import and export fill | • Compaction |
| • Lot shaping | |

SERVICES

Six services under one roof, self-performed by our own crews and plant from first cut to handover.

CONCRETE STRUCTURES

Formed, fixed and poured by our own crews, so the concrete fits the civil works around it.

- | | |
|-------------|-----------------------------|
| • Kerbs | • Paths and driveways |
| • Floodways | • Formwork and steel fixing |

DRAINAGE SERVICES

Stormwater networks sized and built to council standards.

- | | |
|--------------------|---------------------|
| • Stormwater pipes | • Pits and manholes |
| • Culverts | • Floodways |

KEY PROJECTS

Subdivisions, earthworks and civil works delivered by our own crews and plant across South East Queensland. A selection follows.

FERNVALE SUBDIVISION

Head contractor for Stage 1, from bulk earthworks through stormwater, sewer and water to live connections.

LOCATION	CLIENT
Fernvale	NorthWest Developments
ROLE	BUILT
Head contractor	2025

SKYRIDGE STAGES 2-6

A large residential subdivision with stormwater, sewerage and water main pipelines and a new trunk sewer main.

LOCATION	CLIENT

ROLE	BUILT
Subcontractor	2022–23

MAIN BEACH ROAD

Head contractor for structural fill, gravel hardstand, a concrete slab and road widening across two sites on Main Beach Road.

LOCATION	CLIENT
Pinkenba	SAJI · DCP Syndication
ROLE	BUILT
Head contractor	2025

SUBDIVISION CONSTRUCTION · UTILITIES & WATER · SEWERAGE · BULK EARTHWORKS · CONCRETE · DRAINAGE

FERNVALE ROAD STAGE 1

Fernvale Stage 1 after civil works.

CLIENT NORTHWEST DEVELOPMENTS	LOCATION FERNVALE, QLD	ROLE HEAD CONTRACTOR	START DATE JULY 2025
PROGRAM 26 WEEKS	LOTS 53	STATUS COMPLETED	

SCOPE

As head contractor to NorthWest Developments, we took Stage 1’s 53 lots from bulk earthworks through stormwater, sewer and water to live connections with Urban Utilities, over a 26-week program. Our own crews and plant delivered the earthworks and pipework, with a director involved from first price to handover.

- 35,000 m³ cut to fill
- 1 km of stormwater
- 2.2 km of sewer and water
- Live connections to Urban Utilities

UTILITIES & WATER · SEWERAGE · DRAINAGE

SKYRIDGE STAGES 2-6

Skyridge estate, Nerang.

CLIENT SHADFORTH CIVIL	LOCATION NERANG, GOLD COAST	ROLE SUBCONTRACTOR	START DATE 2022
END DATE 2023	LOTS 250	STATUS COMPLETED	

SCOPE

A large subdivision in Nerang delivering 250 residential lots, with stormwater, sewerage and water main pipelines and a new trunk sewer main to support continuing residential development.

- 4.6 km of stormwater pipe, Ø375 to 1650 mm
- 4.8 km of Ø150 mm PVC sewer main
- 3.3 km of PVC water main, Ø100 to 225 mm
- 500 m of Ø300 mm uPVC sewer pipe

BULK EARTHWORKS · CONCRETE STRUCTURES · DRAINAGE

MAIN BEACH ROAD, PINKENBA
