

CAPABILITY STATEMENT 2026

Civil construction for subdivisions, utilities and earthworks across South East Queensland.

D&J'S CIVIL CONSTRUCTION

November 2026

ABOUT US

An Ormeau-based civil contractor building subdivisions, utilities and earthworks across South East Queensland, with its own crews and fleet.

Directors Darren O'Mahony and James Horgan.

OUR STORY

D&J's started as a family plant hire business. In 2015 Darren O'Mahony and James Horgan set up D&J's Civil Construction to take on full civil packages, and we've grown job by job since.

We're still owner-operated, and the values we started with still guide every job: safety, quality, and timely, honest, reliable service.

WHAT SETS US APART

- Owner-operated since 2015
- Directors on site, and easy to reach
- Our own crews and our own plant on every job
- Strong repeat-client and supplier relationships

AT A GLANCE

Founded	2015
Directors	Darren O'Mahony, James Horgan
Base	Ormeau, Queensland
Service area	South East Queensland and Northern NSW
Team	30+ people
Fleet	32 machines, owned
Projects	100+ delivered

WHAT WE BUILD

Six services under one roof, self-performed by our own crews and plant from first cut to handover.

Our crew placing large-diameter stormwater pipe.

CIVIL CONSTRUCTION

Roads, kerb and channel, stormwater drainage and pavements for new estates and public works.

WATER AND UTILITIES

Water reticulation, mains and service conduits, installed and tested to water authority standards.

SEWERAGE

Gravity and pressure sewer, manholes and house connections for residential and commercial sites.

BULK EARTHWORKS

Clearing, cut and fill, compaction and lot shaping, run with our own fleet.

CONCRETE WORKS

Footpaths, driveways, kerb and drainage structures, formed and poured by our crews.

SUBDIVISION, COMMERCIAL AND INDUSTRIAL

Complete civil packages for new subdivisions and for commercial and industrial sites.
